PROFESSIONAL EXPERIENCE

Car Manufacturing

Jan 2023 – Feb 2023

Project Description

A Car Manufacturing company produces and sells cars. Every car post-manufacturing must undergo approval from the quality testing team. Pre-Launch and Post-launch marketing activities should be done while launching the car into the market.

Platform: Salesforce

Responsibilities:

- Creating app to manage car manufacturing details
- Creating user and its profiles
- Giving access to the users
- Creating approval process
- Using flow builder to give email alerts
- Using LWC to satisfy requirements

Achievements:

Car Manufacturing company app was created. With the help of profiles, sharing settings certain access was given to users. Recently launched car models made to appear on top using LWC.
